TILE & GROUT CLEANER

REVISED: OCTOBER 2004

DESCRIPTION

Tileguard Tile & Grout Cleaner is a powerful, ready to use, fast working cleaner. It is a concentrated biodegradable cleaner that removes ingrained dirt, grease, grime and oil deposits without damaging the surface. Unlike most common cleaners, Tile & Grout Cleaner is non caustic and non solvent based, making it safer for the environment. It is ideally suited for use in bathroom, laundry and kitchen areas prior to being sealed with Tileguard Tile & Grout Sealer. Tile & Grout Cleaner is also useful for general purpose cleaning around the home or workshop.

Note: Tile & Grout Cleaner may not remove old or established stains, or it may leave shadowing of the stain after removal.

TEST AREA: Always test on a small inconspicuous area, to ensure that the product is achieving the desired result, prior to application over the entire area.

FEATURES AND BENEFITS

- Ready to use
- Safe for the environment
- Fast acting

APPLICATION

- Apply Tile & Grout Cleaner to the affected area and work vigorously with a stiff brush.
- Leave for 5 – 10 minutes, then wash away with water, but never allow drying out.
- For heavily soiled surfaces, application may need to be repeated until the stain is removed.

NOTE: When applying Tile & Grout Cleaner near lawns and gardens, be careful not to splash onto plants. Should this happen, rinse thoroughly with water to neutralize Tile & Grout Cleaner.

COVERAGE

Coverage rate: 3 - 4 square metres per litre depending on porosity and texture of substrate. The coverage is a guide only and will depend upon porosity and application technique.

THINNING

Not recommended

CLEAN UP

Clean all equipment promptly with warm water and a little detergent followed by a fresh water rinse. Do not pour contents or washings down drains or sinks.

SIZES

Available in 750ml spray bottle

PRECAUTION/FIRST AID

It is recommended that normal personal protective clothing should be worn, including coveralls, impervious gloves and goggles. Avoid unnecessary skin contact and inhalation. Use a suitable respirator if spray application is employed. If swallowed, contact a doctor or the Poison Information Centre on 13 11 26. Give a glass of water to drink and do not induce vomiting.

Should skin contact occur wash immediately and very thoroughly with water. Seek medical attention if irritation occurs. If eye contact occurs hold eye open and wash continuously with clean water for at least 15 minutes. Seek medical advice. Refer to MSDS for more details.

DISCLAIMER

The information contained here is given in good faith and is intended to be of assistance to users. The performance of this product is dependant upon its correct preparation, application onto a sound surface and attention to the instructions on the label. The wide variety of surface conditions makes it impossible for the company to assume liability for any loss, consequential or otherwise, arising from the use of this product. Should the product be found defective our liability shall be limited to the replacement of the product only. We reserve the right to amend specifications and application techniques without prior notice.
