## POLYWEAVE REINFORCING FABRIC

WP0007

REVISED: JANUARY 2002

### DESCRIPTION

Bondall PolyWeave is a spun laced fabric, textile material composed of staple fibres entangled to form a strong reinforcing fabric.

Bondall PolyWeave is used in conjunction with liquid membrane coatings in Shower Recesses, Kitchens, Bathrooms, Laundries, Terracotta Pots, Planter Boxes etc.

It can also be used for repairs, patching etc. It provides excellent conformability when used with Bondall Hydrocrete, Bondcrete, Silasec, AquaTite, PondTite & TerraTite Waterproofing Membrane Systems.

### FEATURES AND BENEFITS

- \* High Tensile Strength
- \* Resistant to Chemicals
- \* Wets Up Easily
- \* Multi Directional
- \* Resistant to Water
- \* Resistant to Rot

### SURFACE PREPARATION/APPLICATION

Refer to P.D.S. for waterproof membranes for usage.

For further information on technical application methods contact the Bondall Building and Renovating Service on 1800 810 123 or (08) 9277 6844. See Web Site: [www.bondall.com](http://www.bondall.com)

### COVERAGE

Each Bondall Polyweave pack is 10m x 100mm.

### DISCLAIMER

The information contained here is given in good faith and is intended to be of assistance to users. The performance of this product is dependant upon its correct preparation, application onto a sound surface and attention to the instructions on the label. The wide variety of surface conditions makes it impossible for the company to assume liability for any loss, consequential or otherwise, arising from the use of this product. Should the product be found defective our liability shall be limited to the replacement of the product only. We reserve the right to amend specifications and application techniques without prior notice.
